A Bespoke Experience
Made with you in mind

Marguerite is housed within the Flower Dome at Gardens by the Bay, one of the most iconic destinations in Singapore. With a panoramic view of the Marina Bay waterfront, Marguerite is surrounded by lush Mediterranean gardens that provide a stunning setting for your wedding.

At 1.2 hectares, the Flower Dome is the largest greenhouse in the world. Replicating a cool-dry Mediterranean climate, the Dome features eight gardens filled with exotic flowers and plants from the Mediterranean and semi-arid regions from five different continents.

The Flower Dome is described as world's largest column-less glasshouse.

The conservatories, designed by Wilkinson Eyre and Grant Associates, are an energy-efficient showcase of sustainable building technologies that provide an all-weather edutainment space within the Gardens.

Together as a whole, Marguerite and Hortus occupy a dual-level space with the main dining room on the lower level, and a cocktail and solemnisation space on the upper level that celebrates the beauty of an outdoor garden, indoors.

Both venues can be booked individually or together.

Our Spaces

Marguerite

A contemporary dining space exudes understated elegance, framed by warm palette tones and the lush flora and fauna of the Flower Dome. A stunning showcase for an exquisite multi-course culinary experience. Curated menus, fine wines and temperance beverage selection can be tailored to your preference.

Take in spectacular views of the Marina Bay skyline and waterfront within the conservatory at ground level.
